

## Las Olas Isles & Sunrise Key Bridges Replacement Project

**APRIL 30, 2013**

---

### Project Overview

The Florida Department of Transportation has awarded an \$8 million design-build contract to MCM Corp. and Gannett Fleming to demolish and replace the low level bridges off Las Olas Boulevard to Royal Palm Drive, Nurmi Drive, Fiesta Way and Isle of Venice and the low level Sunrise Key Bridge off NE 6th Court in Fort Lauderdale.

### Pre-Construction Activities Begin May 6

Beginning the week of May 6, FDOT's contractor will periodically be surveying and soil testing in these areas. During this work one lane may be closed with a flag crew maintaining two-way traffic. The contractor is allowed to start work at 7 a.m. and must comply with the city's noise ordinance.

Also, utility lines that are on or near the bridges must be moved. Utility relocation is scheduled by the individual utility. This work is anticipated to begin in June.

### Project Schedule

Design of the bridges is underway. The contractor anticipates working on two, non-adjacent bridges at a time. Construction is expected to begin in fall 2013. All five bridges are expected to be completed by late 2016.

### Project Updates

We will be holding a public information meeting before construction begins. Also, our project team will be distributing periodic updates. If you would like to receive project updates by email, please send your email address to [cmesa@corradino.com](mailto:cmesa@corradino.com) with a Subject line of Las Olas Isles & Sunrise Key Bridges Updates.
